

# How to *stand out* in the cyber security job market

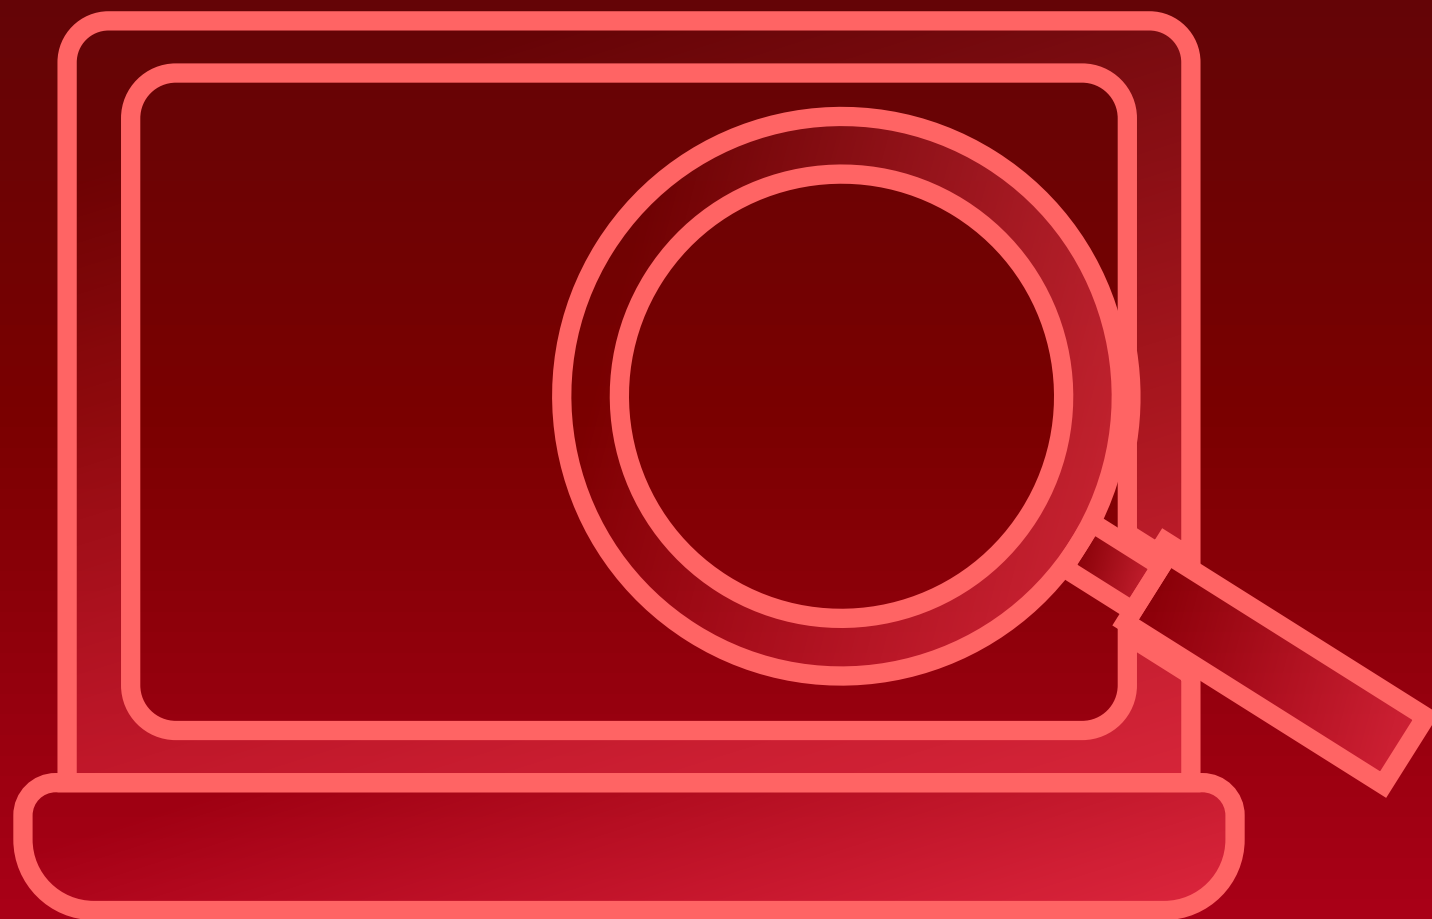

Thousands are applying.  
Only a few get noticed.

**Everyone's doing  
courses.**

But **PT1** proves you've done the  
job.

Real-world simulations > theory

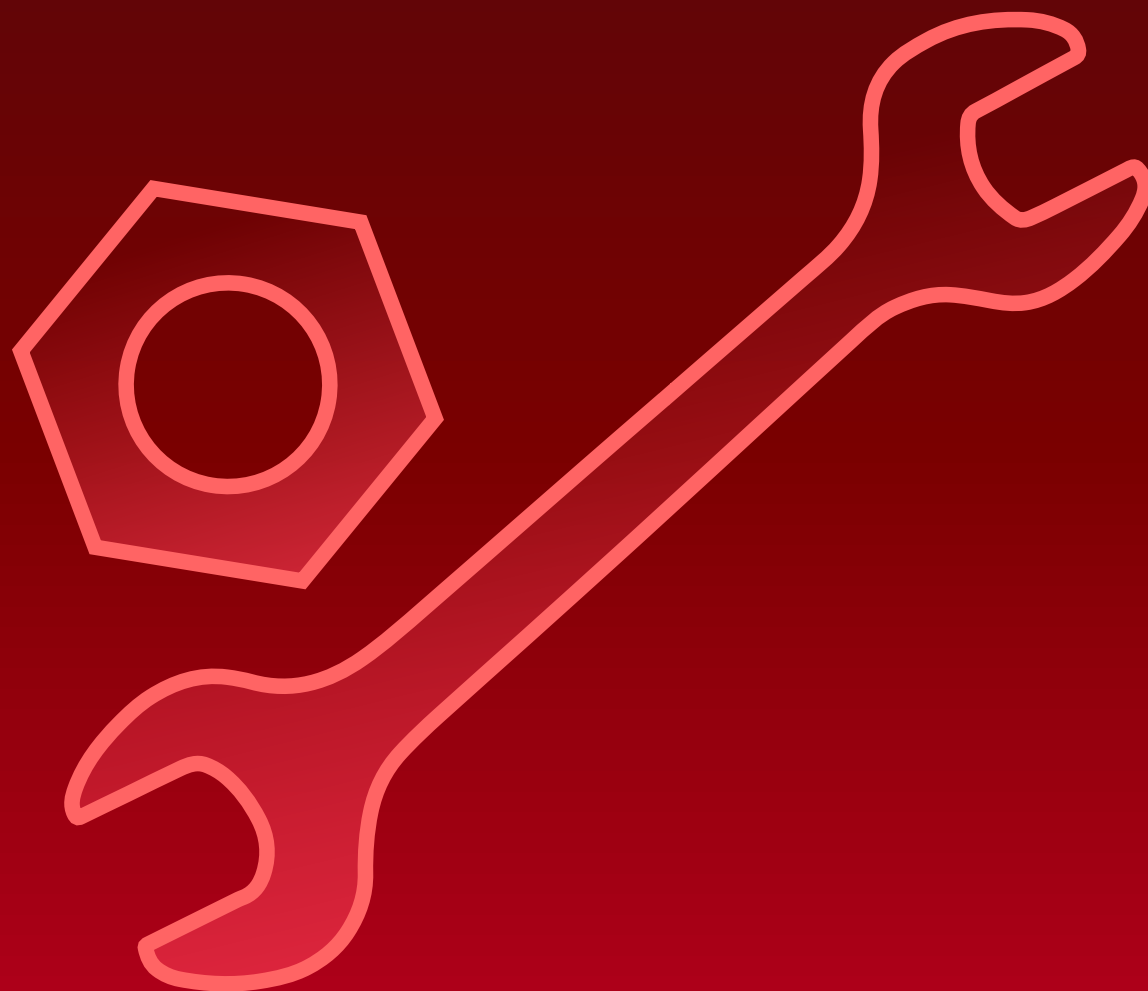

# You learn when and why to use the tools

You'll say:

“I used Nmap and Burp to exploit a real scenario.”

“I wrote a full vulnerability report.”

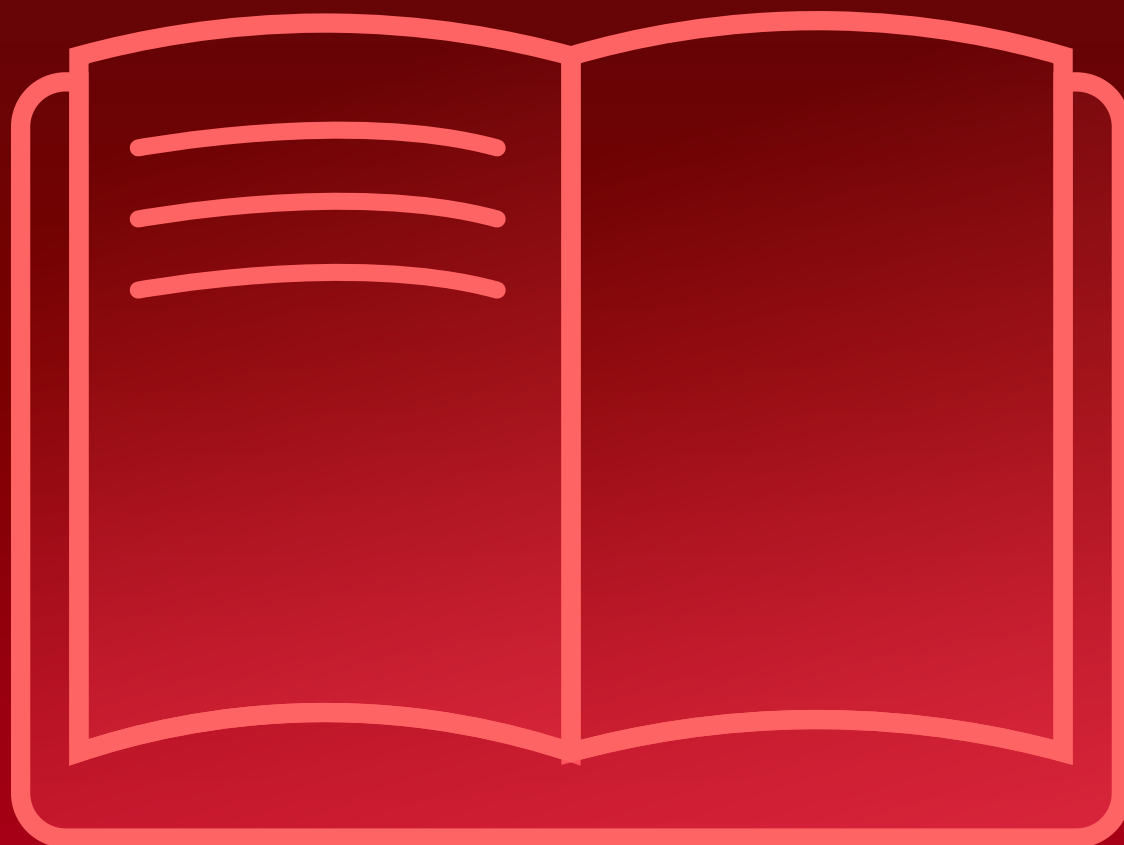

# Show your skills, don't just list them

Public cert page

Portfolio-ready

Reporting practice

# PT1 = Proof of Performance

No more vague claims.

**PT1** certification shows you've  
done the work and can apply  
your skills under pressure.

**You don't need 10 certs.**

**You need **one** that  
proves you're ready.**

**Get **certified**.**

**Get **noticed**.**

**Get **hired**.**
